Concessions Made to American Commerce — Concessions Intended to Meet Complaint of American Importers.

Washington, August 10. — Assurance that Great Britain will relax enforcement of her order in council to permit shipments from neutral ports of German and Austrian goods contracted for by Americans prior to the effective date of the order was given the state department today by Sir Cecil Spring-Rice, the British ambassador.

The ambassador explained that arrangements would be made for accepting proof of contracts at the embassy here instead of in London.

Details of the plan will be given later in a memorandum from the London foreign office. Ottawa hope will make possible the release of millions of dollars worth of American-owned goods of German or Austrian origin.

Foreign Representations Made.—The department have been making vigorous informal representations recently in behalf of the American shipping companies and have complained that while their efforts to obtain the release of goods actually held in the hands of the enemy in Great Britain were getting permitted to certain shipments. Prior to June 15 the department had been making informal negotiations through intermediaries, but had agreed not to intrude with shipments from neutral ports on the ground that the goods actually had been paid for by Americans before the order in council was issued.

After the British ambassador called at the department a cable-gram arrived from London from the British minister at London announcing that the British restrictions on neutral commerce were to be relaxed.

All negotiations in behalf of immu-

tion with the formal note on the connection between the blockade and the dispatches to Great Britain protesting against interference with neutral commerce.

Intention of Britain. Generally speaking, it is the intention of the British government to permit the passage through the blockade lines of goods for which the American government has not received compensation with German and Austrian firms. Hereafter it had been required that the compensation be paid in gold for the goods. Now it will be sufficient for the goods to be regularly contracted for by the American importer is really the person responsible for them and little rests with the American government. Millions of dollars have accumulated at the disposal of the American government in the United States. The order applies to goods which will extend to the goods yet in German hands.

the Atlantic, is yet undetermined. It is the duty of American exporters to present proof under the character of the goods at the British consulates, and the British will greatly facilitate importations.

Germany Blamed About Dyestuffs.

The responsibility for the holding up of dye-stuffs, which are so much needed for America is placed by the British authorities upon the German government. The German government, on the contrary, has been sought for the cause of ill-felling against Great Britain. The British are straight in this matter, the British statement today is the following statement:

On April 14, a formal notice was issued to the German government, in which they would allow vessels carrying two thousand tons of dye-stuffs, which were paid for by the British, to pass without cotton cargoes, to pass without in-

under a neutral flag, that the shipments were made from Rotterdam, and the dye-stuffs consigned to the secretary of commerce for distribution directly to the textile industries.

"This offer, which was refused by Germany, still holds good."

**NO EFFORT BEING MADE
TO DISPLACE M'COMBS**

Washington, August 10.—Persistent reports of efforts within the administration to displace William F. McCombs as chairman of the democratic national committee drew from Secretary Tumulty tonight a statement saying he knew of no such movement, and characterized the reports as "the work of mischief-makers."

Chicago, August 35.—Wheat sold off to the lowest figures of the crop today, on heavy liquidation and lack of support. The market closed weak at a loss of 1 3/4¢ to 2 1/4¢, with September at 85 1/2¢ and December at 82 1/2¢. A general opinion that early fear of frost damage to corn in the northwest was not well founded, lowered values on that cereal after a strong opening. The market closed easy to a shade higher at 73 1/2¢ for September and 62 1/2¢ @, and provisions closed at a range of 2 1/2¢ @ higher to 2 3/4¢ lower.

The bearish effect of lower northwestern and southwestern markets was felt soon after the wheat market here opened. The price of the soft red winter variety close the strength was lost almost immediately and outside of a few feeble rallies, prices gradually weakened. The fall in the soft red winter induced by rumors—which could not be confirmed in the slightest degree—that Canada was soon to lift the duty from wheat.

What was also under bearish pressure, owing to the weakening of Minneapolis premiums to a 10¢ decline

General selling soon followed and the market became sluggish. A bearish reaction followed the report of frost conditions for fair and warmer weather in this country and Canada.

Opening quotations showed a net gain for corn of 4 to 5¢, the chief reason for the increase being reports in Iowa and Nebraska. Reports of damage were later much minimized and following the energetic selling by some strong houses the market broke sharply to the point of closing.

With few small and brief rallies on short buying prices continued depressed, the lowering wheat values showing their sympathetic effect on corn, particularly in the latter half of the day.

Short selling and general liquidation were instrumental in lowering oats to

Provisions fell to the lowest prices of the season. The main selling pressure was on pork and ribs, lard re-
